

PORTABLE MULTI-GAS MONITOR

FOR ALL YOUR INSPECTION NEEDS

All Dacon Confined Space Certified Inspectors carry a personal Protégé Multi - Gas Monitor on their person for added safety.

This is a simple to use and durable gas detector, giving the inspector the confidence to focus on the task at hand. An intuitive user interface and simple two button operation make calibration and basic operation virtually thought-free.

The Multi-Gas Monitor continuously measures Oxygen, Carbon Monoxide and Hydrogen Sulfide levels, in addition to explosive LEL gases.

If any safe range is exceeded the unit will sound a sharp alarm to alert the inspector to immediately exit the area.

Key Features

- Best-in-class toughness and durability
- Curved design for one-hand, one-touch operation
- Bright display window for easy viewing
- Automatic zero-calibration and easy bump test

Sensors

CO : 0 to 999 ppm
H2S : 0 to 500 ppm
O2 : 0-25%
Combustible : 0-80% LEL
